position. Misuse usually occurs in one of three areas.1. The first area is endorsements. We all know that you can tuse your office to endorse a private organization or product. Specifically, you cannot use your title, position or organization to endorse these things. There is an exception, however, for using general terms of address, such as "The Honorable," or military rank. These may be used and do not imply this authority. For example, you cannot say General Smith, CINC, US STRATCOM, loves twinkies. You could say General Smith loves twinkies. Does everyone understand the distinction?2. The second area is fundraising and membership drives. You may use your Government position, in accordance with applicable regulations, to support the few official DoD fundraising functions, such as those of CFC and the Service Relief Organizations. You may not use your Government position for fundraising or membership drives for anything except those few official events. For example, a commander may not sign a letter recommending that employees join the NCMA (National Contract Management Association) or similar organization.

□#ÿÿ####ÿÿ####ÿ□#ÿÿd#######d#####b###3. The third area is Benefits.

Remember our opening cartoon? As you can probably guess, you may not use your Government position to coerce anyone, especially subordinates, to provide any benefit to yourself or anyone else. For example, the SecDef cannot use his official letterhead to recommend his neighbor daughter for admission to the Citadel.

For example, you may Of course, GOVs may be used for official purposes. use a GOV to travel from your official duty station to a work site, or between work sites. You cannot use a GOV for personal entertainment or recreation of any You may also use a GOV for a few authorized purposes.a. kind.3. One is when you are on TDY orders. i. Lodging - You may use a GOV to travel between your lodging and your work. ii. Restaurants - You may use a GOV to travel to a "suitable" restaurant. Thedetermination of a "suitable" restaurant depends on the facts of your situation. If there are several restaurants nearby, you may not use the GOV to go to a restaurant some distance away just because it is more In other words, if there is a HOJO, a Denny's, a Steak and Ale, etc., within a 2 mile radius, you can't use the GOV to travel 20 miles to the exclusive French restaurant, Le Greasy Spoon. iii. Religious Services - You may use the GOV to attend religious services. Miscellaneous - You may use a iv. GOV to go to a hair stylist, dry cleaner, laundromat, doctor, or drug store.

The key is that the activity must be necessary to your sustenance, health or comfort and the continued efficient performance of Government business. Just remember to go to establishments as close to your lodging or TDY site as possible.

What are some examples of activities that are NOT authorized? v.
You may not use a GOV when you are on leave. vi. You also can't use a GOV to go to a theater, the local casino, or a dance hall.

Overnight retention is taking a GOV home the night before a TDY Work Exceptions trip so that you can start that trip from your home. Home to work means that you take a GOV home so that you can drive it to a work site the next day. The advance approval of the SecDef is required in both of these circumstances. The SecDef may approve when there is a "clear and present danger," an "emergency," or "compelling operations considerations." c. Field Work Exception This exception requires you to be at various locations that are a distance from your home work site or remote locations accessible only by Government provided transportation. This exception also requires approval of the SecDef.4. Penalty The penalty for the willful misuse of a GOV is severe. The MINIMUM penalty is a 30 day suspension without pay. 5. Rental Cars Are NOT GOVs Cars that you rent while on Government orders are treated differently, more like your own personally owned vehicle. The Government will reimburse you only for the costs associated with the official portion of the rental, for example all those things we were just discussing under GOVs. You may use the vehicle for personal purposes, but you must pay those expenses. For example, if you were on a 2 week TDY assignment and wanted to use the rental car to go sightseeing over the weekend, you could do it, but be sure not to charge the Government for any expenses associated with the excursion! You could also go to that exclusive French restaurant, Le Greasy Spoon, just be sure to exclude the mileage! If you had a GOV, you would be stuck, or have to arrange for alternative transportation. Remember, though, when you are using the car for your own purposes, you are responsible for any liability, insurance and costs.
